

RICHARD M. BISSELL JR. PAPERS
MISCELLANEOUS PUBLICATIONS SERIES
1962 - 1992; Box 1

SERIES DESCRIPTION

This series consists of publications that arrived with the rest of Richard M. Bissell Jr.'s personal papers. While other publications in the collection are filed across different series to which they are related and in which they were originally filed, these publications arrived grouped together without obvious connections to other, specific series. This series originally arrived unarranged. It is now arranged by format (Articles and Papers, Books and Periodicals) and thereunder by either publication title or organization. Articles from the same publication are arranged in reverse chronological order.

The publications in this series address topics in which Bissell was personally and professionally interested; economics, arms, electronic warfare, energy, aviation, Cuba, nuclear test bans, and foreign affairs. Some publications are briefly annotated by individuals who sent publications to Bissell, unknown individuals, and either Bissell or his office staff.

CONTAINER LIST
