SCOPE AND CONTENT NOTE

The material in this file pertains primarily to Meyer Kestnbaum's duties as Special Assistant to the President for implementation of recommendations of the Commission on Organization of the Executive Branch of Government (called the "Second Hoover Commission"). The file also contains material pertaining to Mr. Kestnbaum's chairmanship of the Commission on Intergovernmental Relations and his role in implementing the recommendations of that Commission; and material on the Joint Federal-State Action Committee. The subject matter of these files reflects the issues with which these three commissions dealt. Below is a partial list of major subject areas in this file:

Areas of Authority of local, state and Federal Government

Competition of the Government with private enterprise

Conservation

Delegation of Presidential duties

Education

Federal Budget and accounting

Federal electric power vs. private electric power

Federal paperwork management

Federal Personnel and Civil Service

Federal Supply System

Federal Transportation

Forestry

Lending Agencies

Military Supply

Organization of the Defense Department

Real Property Management

Reduction of the costs of government

Research and development in the Defense Department

Urban Problems

Veterans Affairs

Water Use

Welfare (Public Assistance)

The major portion of the material concerns the formulation of legislation or executive orders to implement recommendations of the "Second Hoover Commission", liaison between the "Second Hoover Commission" and agencies concerning recommendations, recommendations of the "Second Hoover Commission" to the President's Cabinet (See folder number 155 for example of the latter, by use of "Cabinet Papers"), and general correspondence on improving Operations in the Executive Branch. The file is additionally important because it often reveals why some of the recommendations of the "Second Hoover Commission" were not implemented.

This file is not the working file of the Commission on Organization of the Executive Branch of Government ("Second Hoover Commission"), or any of the other commissions. It is Mr. Kestnbaum's own White House office file.
