Literary rights in these records are in the public domain. These records were reviewed under provisions of the instrument of gift of Dwight D. Eisenhower signed April 13, 1960. Under that letter the following classes of documents are withheld from research use:

1. Papers that are security-classified until such classification shall be removed.
2. Papers the use of which may be prejudicial to the maintenance of good relations with foreign nations.
3. Papers containing statements made in confidence unless the reason for confidentiality no longer exists.
4. Papers relating to family or private business affairs.
5. Papers containing statements which might be used to injure, harass, or damage any living person.

## SCOPE AND CONTENT NOTE

The Cabinet Minutes Series contains typescript summaries of discussion from the Cabinet meetings held from January 1953 to October 1960, as well as some Sub-Cabinet meetings materials dated 1954-1956. In addition to the summaries of discussion this series also contains aide de memoirs, Cabinet Papers, and other various background materials. These materials are arranged in reverse chronological order.

The Cabinet Papers are official documents which were mimeographed on forms which normally bear the marking, "Cabinet Paper - Privileged." These forms are white, yellow, or blue, depending on the nature of the document. White denotes papers which have been approved by the President and are labeled "Cabinet Paper For Action." This category includes agendas, Action Papers approved for implementation, and Records of Action which tersely summarize the decisions made on each item discussed in meetings. Yellow indicates those documents prepared for informational purposes or used to assist the President and Cabinet officers to keep track of actions taken on decisions. These informational papers include Action Status Reports and papers specifically labeled, "Cabinet Paper For Information." The blue papers were prepared by the concerned departments for discussion and possible approval at Cabinet meetings and bear the marking "Cabinet Paper For Consideration."

The Cabinet Minutes Series is a near duplicate of the Cabinet Series of Eisenhower's Papers as President (the Ann Whitman File); however, this series contains less background material and should be used as a supplement to, not a substitute for, the Cabinet Series.
