CARDED

Dear Mr. Chairman:

I am glad to have your thoughtful letter about the St. Lawrence, and certainly agree with you that enactment of this legislation is an historic achievement in which all major participants, such as yourself, have every occasion to take pride.

Looking to the future, I am interested in your remarks about the Administrator of the Corporation and its Advisory Board. Of course, your suggestions are most welcome and I hope you will give me any additional ideas along this line that you may have.

GERALD D. MORGAN
