

FLEMMING, ARTHUR S.: Papers, 1939-1975

Name and Subject File

A high percentage of this series is routine correspondence such as expressions of congratulation, employment inquiries, letters of recommendation and transmittal letters. The more substantive material on such topics as politics and national policy issues is sprinkled throughout the series as noted in the container list. The documentation in this series spans the period 1939-1975 though the bulk falls within the years 1961-1968. The 1961-1968 material was generated while Flemming was President of the University of Oregon and was received as a general alphabetical correspondence file. Material of a similar nature from other periods was integrated into the 1961-1968 files to produce this series.
