President of the United States,
Dwight D. Eisenhower,
The White House,
Washington, D.C.

Dear President Eisenhower —

I wish to praise you in your speech last night telling the Chinese to negotiate or fight.

Now then to another subject —. this summer we were host to the National Society S.A.R. Every S.A.R. who came to Mississippi ~~saw~~, participated in and approved our way of segregation. 98% of the S.A.R. are infuriated over forced integration and are doing something to stop forced integration — nearly every one of us except you — do you still choose to be and act like an S.A.R.? We wish you would get hold of yourself and again order segregation. This seems unlikely there for it appears to us that you

(own)

would rather see white and negro bodies piled high in the streets so their blood will mingle freely in the gutters. This is the only way our blood will mix.

This is the last that you shall hear from me in so far as me begging and pleading for you to restore States Rights, Racial Integrity and Constitutional Government to the land. It is evident that you neither desire this for the people nor wish for them to obtain it. Never-the-less, we shall have it whether you wish it or not.

Many will suffer now but soon all will be better for the South and the Nation.

It is my purpose to make life happy for most of us by thwarting some of them who would destroy all of us.

Sincerely Byron De La Beckwith
Board of Governors, Miss. Society
