The Papers of Mark Bortman, Chairman of the Civic Committee of the People-to-People Program and member of People-to-People’s National Board of Directors, were deposited in the Dwight D. Eisenhower Library in August of 1972 by his wife Llora Bortman. In June 1972, Mrs. Bortman executed an instrument of gift for these papers.

Linear feet shelf space occupied: 20  
Approximate number of pages: 49,300  
Approximate number of items: 24,650

Literary rights in the unpublished writings of Mark Bortman in these papers and in other collections of papers in the Eisenhower Library are reserved to Mrs. Bortman during her lifetime and thereafter, to the people of the United States.

By agreement with the donor the following classes of documents will be withheld from research:

1. Papers relating to the family and private business affairs.

2. Papers relating to the family and private business affairs of other persons who have had correspondence with Mark Bortman.

3. Papers relating to investigations of individuals or to appointments and personnel matters.

4. Papers containing statements made by or to Mark Bortman in confidence unless in the judgment of the Director of the Dwight D. Eisenhower Library the reason for the confidentiality no longer exists.

5. All other papers which contain information or statements that might be used to injure, harass, or damage any living person.
The Papers of Mark Bortman span the years 1957-1967, when Bortman was Chairman of the Civic Committee of the People-to-People Program and was on People-to-People’s National Board of Directors. Most of the material originated during the period 1960-1965.

The People-to-People Program was initiated in September 1956, when President Eisenhower called a group of leading citizens to a special White House Conference “… to discuss ways and means of building new roads to international understanding.”¹ A result of the conference was the creation of a number of People-to-People committees representing persons in various careers, such as musicians, actors, businessmen, athletes, labor leaders, writers, civic leaders, etc.

One committee formed at the September 1956 conference was the Civic Committee. Mark Bortman was selected chairman. The purpose of the committee was:

... to encourage American communities to join hands with overseas communities and carry out programs of mutual interest in international friendship and understanding. Such present programs generally take the form of town affiliations, community salutes and People-to-People Councils.²

In November 1961, a non-governmental, non-profit organization, People-to-People, Inc., was incorporated in Missouri after the original People-to-People apparatus had largely ceased its central operations in 1960. The new organization’s purpose was to consolidate and coordinate various People-to-People projects, including the town affiliation program. Hence, the Bortman Papers contain much material initiated by the officials of People-to-People, Inc.

The American Municipal Association (AMA) worked intimately with the Civic Committee in the fostering of sister-city affiliations. Consequently, a considerable amount of material in the Bortman Papers was originated by AMA officials. In addition, many pages are to and from persons in the Office of Private Cooperation of the United States Information Agency, which assisted in the fostering of sister-city affiliations.

The second series of the Bortman collection is a name file of individuals. Each folder contains correspondence to and from a particular person. It should be noted, however, that all correspondence with a particular individual may not necessarily be located in this series. Additional correspondence may well be in other series, since many individuals were involved in various projects and played a role in the creation of numerous sister-city affiliations. Correspondence of officials of the American Municipal Association and the Office of Private Cooperation, particularly, are interspersed throughout the entire collection.

¹Memorandum, Mark Bortman to Richard Oakland, November 1, 1963.
²Ibid.

While most of the material in the Bortman Papers is related to sister-city affiliations, part of the collection is concerned with other international good-will projects. In his position as chairman of
the Civic Committee, Bortman had correspondence with leaders of other groups seeking to work for harmonious international relations.

Three hundred and seventy-six photographs received with the collection were withdrawn and transferred to the Audiovisual Collection of the Eisenhower Library.
