

## THE SECURITY FLOUR MILLS CO

No finer object lesson in the possibilities of a business enterprise conducted on sound principles of energy, industry, and integrity could be found than that of the Security Flour Mills Company. This business became established three years ago. The firm has kept abreast of the times, discarding old machinery and installing new when any improved machinery or method would in any way increase the quality of the product. The mill at present has a capacity of six hundred barrels per day and owing to the large volume of business conducted, twenty-two skilled and experienced operators are required. The elevator has a storage capacity of 70,000 bushels of grain. A specialty is made of manufacturing high-grade hard wheat flour. "Havasack," "Crown," and the "Silver Leaf" are among the most popular brands. These brands have probably done more in spreading the name and fame of this concern, and Abilene as a manufacturing and distributing center, than any similar product from this section. The active directors of this establishment are: Mr. W. H. Kinney, Mr. T. J. Holdridge, Mr. J. W. Burns and Mr. C. H. Colladay. Mr. Colladay is the secretary and the general manager, directly supervising the work. All of these gentlemen are highly esteemed as progressive and successful business men and earnest workers for the betterment and advancement of the commercial conditions of our city.
