U.S. NATIONAL SECURITY COUNCIL PRESIDENTIAL RECORDS,
Intelligence Files: 1953-1961

Accession: 04-12; 11-09
Processed by DJH; MMK

This collection consists of an estimated 3 cubic feet of National Security Council (NSC) records which, while under the legal custody of the National Archives and Records Administration, are currently in the physical control of the NSC. These records are slated to be sent to the Dwight D. Eisenhower Library in the future. The records are still almost entirely security-classified but are subject to the provisions of the Freedom of Information Act (FOIA) (5 U.S. C. §552, as amended) and the Presidential Records Act (PRA) (44 U.S. C. §2201-2207).

The small quantity of documentation now available for research at the Library from these records consist of items released as a result of agency and White House actions taken in response to FOIA requests. Additional materials may be released depending upon the outcomes of FOIA requests currently pending for portions of this material or any future requests.

A shelf list of the titles of documents currently available for research at the Eisenhower Library is attached. It is subject to revision as the Library receives additional portions of these records. For additional information concerning these NSC records please consult the archives staff at the Eisenhower Library. Inquiries concerning procedures for submitting FOIA requests for these records still under NSC control should also be addressed to the archives staff.

The Eisenhower Library received the first partially declassified portions of these records in February 2004. An accretion arrived in April 2011.
